

**Students participating in only the Hazardous Materials Operations section of the Firefighter 1 program.**

Non FF-1 students may be admitted to the Hazardous Materials Operations section of the Firefighter 1 program at the discretion of the County Fire Coordinator. Non firefighter 1 students are limited to a maximum of 10. If more than 10 students need Hazardous Materials First Responder Operations course, the county should schedule a full course.

Procedures listed below will allow for course completion of individuals who wish to take a Hazardous Materials First Responder Operations course or to make up missed lessons from a Hazardous Materials First Responder Operations course.

Non FF-1 students will need to fill out a registration card on the first night of Hazardous Materials Operations (Lesson 21) **The Lead instructor shall have the student complete a student enrollment card, except for the course number. The Lead Instructor shall then write the number (962531) on the student enrollment card and submit it with the rest of the student enrollment cards with an indication that there is a separate student entry. .**

Students participating in only the Hazardous Materials Operations section of the Firefighter 1 program must attend all 4 lessons (Lessons 21 - 24) and successfully complete a written exam during the final session of the class. FF-1 students are exempt from this written exam as they are tested during the FF-1 final exam for the material covered in Lessons 21 – 24.

Students participating in only the Hazardous Materials Operations section of the Firefighter 1 program need not attend the practical skills session.

The State Fire Instructor or Fire Protection Specialist responsible for delivering Hazardous Materials Operations section of the Firefighter 1 program must ensure that the TIMS cards are delivered to the proper authority and certificates are awarded consistent with local practices.

Effective for Firefighter 1 courses Scheduled after August 1, 2009.
